(b) the facility has used the personal protective equipment burn rate calculator made available by the federal Centers for Disease Control and Prevention and:

(d) the facility has implemented a respiratory protection program that complies with the respiratory protection standard for employees established by the federal Occupational Safety and Health Administration, including fit testing and training in donning and doffing personal protective equipment.

c. A facility receiving a rate adjustment pursuant to this section that has been cited by the Department of Health for two repeat infection control violations during the period from October 1, 2020 through June 30, 2021, including, but not limited to, citations for repeat violations of the staff and resident testing requirements outlined in Executive Directive No. 20-026, may be subject to recoupment of the rate adjustment by the State in an amount not to exceed the total value of the rate adjustment.

d. A facility that fails to meet any requirement of this section may be subject to recoupment of the adjustment by the State in an amount not to exceed the total value of the rate adjustment. Any attestation required under paragraph (2) of subsection b. of this section

that is filed after a deadline established by the Department of Health or June 30, 2021, whichever is earlier, shall be considered a failure to meet the requirements of this section.
